

Cisco Splunk Platform - Demo Drive

Core Competencies

Programming

Web Servers

Certifications

Splunk Enterprise is a software product that enables you to search, analyze, and visualize the data gathered from the components of your IT infrastructure or business. Splunk Enterprise takes in data from websites, applications, sensors, devices, and so on. After you define the data source, Splunk Enterprise indexes the data stream and parses it into a series of individual events that you can view and search.

Splunk Cloud Platform delivers the benefits of award-winning Splunk Enterprise as a cloud-based service. Using Splunk Cloud Platform, you gain the functionality of Splunk Enterprise for collecting, searching, monitoring, reporting, and analyzing all of your real-time and historical machine data using a cloud service that is centrally and uniformly delivered by Splunk to its large number of cloud customers, from Fortune 100 companies to small and medium-size businesses. Unless otherwise noted in Release Notes, Splunk manages and updates the Splunk Cloud Platform service uniformly, so all customers of Splunk Cloud Platform receive the most current features and functionality.

At OnStak, we specialize in Splunk Platform implementation and application development services to expedite Splunk App Development. With our Solutions-First approach we help our customers in every step to understand their data and visualize it. Our demo drive is offered for both Enterprise and Cloud.

What do you get?

OnStak has a team of world class engineers who specialize in Splunk Cloud solution and are passionate about customer success. The Splunk Cloud Demo provides an opportunity to the audience to explore Splunk Cloud's features and functionalities. This demo environment is designed to help you understand how to use Splunk Cloud for data ingestion, searching, visualization, alerting, and more.

The demos are set up for Splunk Cloud Platform and Splunk Enterprise and showcase following capabilities:

- Data Ingestion
- Data Storage
- Indexing
- Search
- Dashboards
- Splunk Apps

Who has benefited from our services?

OnStak has successfully delivered services across a spectrum of industries, including healthcare, manufacturing, service providers, and financial services. Industry leaders consistently choose OnStak for assistance with ambitious initiatives involving Splunk Enterprise platform and Splunk Cloud Platform.
